55TH ANNIVERSARY - CONCERT PROGRAM

PART I - 45'

TANECZNE PEJZAŻE - MEMORIES

MUSICAL ARRANGEMENT: Z. CELIŃSKI, P. MARCYNIAK, CHOREOGRAPHY: E. CIEŚLIŃSKA, M. BOCHENEK

Years of work and dedication by hundreds of dancers and graduates, along with numerous trips, concerts, and festivals, have contributed to this story. The most significant moments in history have been recorded in chronicles, lingering in the memories of all our dancers. The "Podlasie" Song and Dance Ensemble is an institution and a "living organism" that evolves alongside the development of Biała Podlaska University and the group of people who come, stay, and always return here. Dance landscapes and choreographies of memories tell a story of love and passion for dance and folklore, thoughtfully reflecting on the most important events over the past 55 years.

KINEMATOGRAF NA BIELANACH - DANCES AND SONGS OF OLD WARSAW

MUSICAL ARRANGEMENT: P. MARCYNIAK, CHOREOGRAPHY: M. BOCHENEK

A dance and music show infused with energy and humor, where music and dance are paired with imagery of pre-war Warsaw, drawing from the collections of the National Digital Archives and the Academy of Physical Education. Bielany holds a unique place in the history of the parent AWF. In addition to popular hits, the show will feature sports elements related to establishing the Central Institute of Physical Education in 1929, which later became the University of Physical Education in Warsaw. For various reasons, this blend aligns with the identity and character of the ensemble and the university, highlighting the sports DNA of its dancers and creators.

PART II - 45'

TRYPTYK PODLASKI - THE MYSTERY OF KOROBECZKA

MUSICAL ARRANGEMENT: P. MARCYNIAK, CHOREOGRAPHY: M. BOCHENEK

The dance folklore of Podlasie presents an intriguing history crafted long ago, capturing interest in various ways. The most beautiful melodies and dances of Podlasie are lyrical and humorous, vibrant in different "shades and colors." The triptych symbolizes the passage of time and seasons. The title of the performance has a diverse dimension, referring to "korobeczka." On the one hand, it signifies a woven basket, a straw container commonly found in Podlasie; on the other hand, it represents a dance accompanied by a lyrical melody, symbolically connected to traditional folk crafts.
